Education

Vishwakarma University Expected - 2026 Pune, Maharashtra

Bachelor of Technology in Computer Engineering (GPA: 8.38 / 10.0)

Relevant Coursework: Design and Analysis of Algorithms, Computer Network, Artificial Intelligence, Software Design, Software Development Life Cycle (SDLC), Agile Methodology.

Government Polytechnic Pune 2020 - 2023

Diploma in Computer Engineering (Percentage: 81.43)

Relevant Coursework: Data Structures & Algorithms, Object Oriented Programming, Database Management System, Android, Operating System.

Lal Bahadur Shastri Vidhyalaya - 2020 Udgir, Maharashtra

10th (Percentage: 95.40)

Technical Skills

Languages: C, C++, SQL, JavaScript, HTML, CSS, Python (intermediate), Java (intermediate)

Libraries/Frameworks: Node.js, React.js, Tailwind CSS, Bootstrap

Databases: MySQL, Oracle, MongoDB

Tools: Power BI (Basic), MS Excel, GitHub, Git, VS code, Canva

Extracurricular Activity: Visionary Techfest '24 – Event Management Volunteer

Soft skills: Adaptability, Time Management, Teamwork & Collaboration, Problem-Solving, Attention to Detail

Work Experience

TechnoBrilliant, Pune, India | Web Developer Intern

(7/2022 – 09/2022)

- Created a responsive, cross-browser compatible website for “Café Delight”, resulting in a **30% increase in user engagement** within the first month of deployment.
- Integrated dynamic UI components (sliders, navbar) using Bootstrap JS, reducing page load time by **20%**.
- Collaborated with a team of 4 developers to meet all sprint goals under Agile methodology, delivering the project **2 weeks ahead of schedule**.

Projects | [Link](#)

Beej – Agriculture AI Chatbot | Python, Flask, React JS, Gemini API, OpenAI API, Speech Recognition, Text-to-Speech

- Designed and developed a voice-enabled AI chatbot that assists farmers with real-time weather updates, crop guidance, and farming techniques.
- Integrated RESTful APIs with a Flask backend, used Gemini API for AI responses and TTS/STT modules to enhance accessibility.
- Supported **500+ simulated user queries** during testing, ensuring robustness for real-world usage.

Grammar Checker | Python, NLTK, Flask, React JS, Rule-Based NLP

- Built a rule-based grammar checking web application using NLP principles.
- Implemented tokenization, POS tagging, and grammatical rule enforcement using NLTK.
- Created a real-time feedback interface, improving user writing accuracy by **up to 25% in testing environments**.

Certificates | [Links](#)

- Fundamentals of Computer Network Security** – Coursera
- IT Fundamentals for Cybersecurity** – IBM / Coursera
- Deloitte Job Simulation** – Forage
- SQL (Intermediate)** – HackerRank Certification
